

LIGHT POLLUTION AMPLIFIES THE RISK FOR MIGRATING BIRDS!

BE AWARE OF RISKS

Birds are drawn into urban centres where they are at higher risk of

Window collisions

Predation

Water, air, and noise pollution

Artificial light disrupts birds'

Foraging

Sleeping

Breeding behaviour

Immune system

Metabolism

WHAT YOU CAN DO

Reduce unnecessary lighting

Use motion detection lights outdoors

Use window coverings

Help raise awareness

Talk to your neighbours

Raise the issue at your workplace

Get involved!
